"Motorcycles were born in a workshop and therefore we conceived the contents of the Museum, of mechanics and not, enclosed as if it were in a Cartier box." Thus Giacomo Agostini, who inaugurated his personal Museum in Bergamo in December 2019, explains how the structural idea of this Trophy Hall was designed together with Studio Giavarini. Planium Srl has contributed to the realization of this historic place by making three particular structural ideas concrete: the floor, the false ceiling and...
